

Digital Scholarship Centre (DSC) Makerspace Code of Conduct Agreement

The DSC Makerspace is a rapid prototyping workspace where University of Alberta students, faculty, and staff can be creative and put theories and concepts into practice through hands-on creation, fabrication, and most importantly, collaboration.

As a DSC Maker and future member of the maker community, I, _____, on today's date, _____, hereby pledge the following:

1. I will put my Maker knowledge to practical use as I turn my ideas into physical creations and explore new ideas
2. I will learn through hands-on experience, in both success and failure
3. I will learn from, teach, help, collaborate with, include, mentor, respect, celebrate, encourage, and inspire fellow Makerspace members, whether they are students, faculty, or staff
4. I will follow all policies, procedures, and expectations with NO exceptions
5. I will create and maintain a safe atmosphere not only for myself but for other members at all times
6. I will only use equipment that I have been properly trained and certified on from Staff
7. I acknowledge that the Makerspace staff have the final say on what is permissible inside the Makerspace
8. I will represent the values and ethics of the University of Alberta
9. I understand that access to the Makerspace is a privilege which can and will be revoked if I do not follow the policies, procedures, and expectations of the space
10. I will ensure a harassment-free experience for everyone, regardless of gender, gender identity and expression, sexual orientation, disability, physical appearance, body size, race, ethnicity, or religion.

I agree to the above statements and understand that following them will ensure that current and future generations are able to enjoy all that the Digital Scholarship Centre Makerspace has to offer.
